Fri, 15 Mar 2019 10:51:00 GMT information and coding theory springer pdf - Neural coding is a neuroscience field concerned with characterising the hypothetical relationship between the stimulus and the individual or ensemble neuronal responses and the relationship among the electrical activity of the neurons in the ensemble. Based on the theory that sensory and other information is represented in the brain by networks of neurons, it is thought that neurons can encode ... Sun, 17 Mar 2019 04:50:00 GMT Neural coding - Wikipedia - In signal processing, data compression, source coding, or bit-rate reduction involves encoding information using fewer bits than the original representation.

Compression can be either lossy or lossless. Lossless compression reduces bits by identifying and eliminating statistical redundancy. No information is lost in lossless compression. Lossy compression reduces bits by removing unnecessary or ...
