Dual diagnosis (also called co-occurring disorders, COD, or dual pathology) is the condition of suffering from a mental illness and a comorbid substance abuse problem. There is

considerable debate surrounding the appropriateness of using a single category for a

heterogeneous group of individuals with complex needs and a varied range of problems. The concept can be used broadly, for

Dissociative identity disorder (DID), previously

known as multiple personality disorder, is a

mental disorder characterized by at least

two distinct and relatively enduring personality states.

There is often trouble remembering certain

events, beyond what would be explained by ordinary

forgetfulness. These states alternately show in a

person's behavior; presentations, however, are

variable. Mon, 18 Feb 2019 13:51:00 GMT
