Federal Identity Program Manual - Canada.ca - Thank you for this post. This will help me to convert documents for school to the new 2-space APA format. It amazes me that although we have taught for 20 years to space once after a sentence, professional writers and publishers space once AND we made the transition from a typewriter's monospacing to the proportionate text of a word processor, that such a change would be proposed. Example 1 If we want to print a long row of dashes, we can do the following print('-'*75)
Example 2 The + operator can be used to build up a string, piece by piece, analogously to the way we built up counts and sums in this section and this one. Here is an example that repeatedly asks the user to enter a letter and builds up a string consisting of only the vowels that the user entered. Thu, 14 Mar 2019 19:34:00 GMT
