stress physiology in livestock vol ii ungulates

Wed, 20 Mar 2019 21:22:00 GMT stress physiology in livestock vol pdf - Our objective was to provide a review of factors influencing heat stress in lactating dairy cows and how it affects milk production. In warmer parts of the world, during summer months in the United States, and in other temperate regions, reduced milk production resulting from heat stress counteracts tremendous genetic progress achieved in increasing milk production.

Wed, 20 Mar 2019 01:12:00 GMT Heat stress in lactating dairy cows: a review - ScienceDirect - Climate change and agriculture are interrelated processes, both of which take place on a global scale. Climate change affects agriculture in a number of ways, including through changes in average temperatures, rainfall, and climate extremes (e.g., heat waves); changes in pests and diseases; changes in atmospheric carbon dioxide and ground-level ozone concentrations; changes in the nutritional ...
